

ELLIOTT

EQUIPMENT COMPANY

MINING INDUSTRY

FIELD PROVEN RELIABILITY

TOUGH JOBS CALL FOR TOUGH EQUIPMENT.

Mining is hard work, which is why Elliott's products are built from the ground up with heavy-duty components that are built to last. From deep underground limestone and salt mines, to the open pit mines of South America, Elliott HiReach aerial work platforms and BoomTruck cranes are used for the most extreme duties. Whether you are maintaining equipment and facilities, scaling, fertilizing or drilling, Elliott's HiReach makes your job easier and safer than ever before, thanks to the combination of a high capacity multi-featured work platform and material handling capabilities on a single machine. Plus, with Elliott's Office In The Sky accessory packages all of your tools can be brought to the platform to make your job even faster. Elliott's BoomTruck products are fully customizable with options such as wireless remote controls, detachable work platforms, LMI light bars and even hydraulic drills to ensure you have the right tool for the job. Every Elliott comes standard with the peace of mind of knowing that your investment is backed by the best warranty in the business.

H60F HiReach

BUILT FOR YOU.

We know that every job is different and requires unique solutions to get the job done right. Starting with a wide range of optional equipment, Elliott's distributors and sales engineers will work with you to build exactly what you need to do your job properly. At Elliott, we put you in the driver's seat to design a product that specifically fits your needs and will maximize your investment.
